DECLARATION IN RESPONSE TO
NOTICE PURSUANT TO 42 U.S.C. §2182

We, the undersigned inventors, hereby declare that:

1. Our residence, post office address and citizenship are as stated below next to our respective names;
2. We made and conceived the invention described and claimed in the above-identified patent application in the course of work performed by us on behalf of Chiron Corporation in the city of Emeryville, California;
3. The invention described and claimed in the above-identified patent application is related to the work we were employed to perform and was made within the scope of our employment duties. The invention was also made during working hours and with the use of

Inventors: Pablo D. Garcia et al.
Serial No.: 10/016,604
File: 12/07/01

facilities, equipment, materials, funds, information
and services of Chiron Corporation.

4. To the best of our knowledge and belief, the invention was not made or conceived in the course of, or in connection with, or under the terms of any contract, subcontract or arrangement entered into with or for the benefit of the United States Atomic Energy Commission or its successors: Energy Research and Development Administration or the Department of Energy;
5. We declare further that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
